

Premium Plus™

Static Replacement Mattress

Product Code - APH001

The **Premium Plus** is a high specification replacement mattress designed to meet the demands of the acute healthcare environment. Practical and durable, this mattress delivers exceptional levels of comfort and pressure reduction. This is achieved by premium 'keyhole cut' foam that sits in a 'U' shaped core. The **Premium Plus** is suitable for those considered at '**High Risk**' of developing pressure ulcers.

- Featuring a unique contoured pad, constructed from 'keyhole cut' castellated foam cells, which move independently to provide excellent patient comfort, reduce shear and friction and optimise pressure reduction. In turn, this allows excellent conformity when profiled on electric bed frames.
- The outer cover is a multi-stretch, waterproof, vapour permeable, polyurethane fabric with welded seams and a full length flap concealing the zip. These features combine to effectively reduce the ingress of fluid into the mattress.
- The mattress cover can be wiped down or completely removed and laundered up to 95°C to aid decontamination protocols.

Specifications

Dimensions: 198cm x 88cm x 15.6cm

Maximum Weight Limit: 39 stone / 247.6 Kg
